Making it easy to do business

## STREET FURNITURE

---

## CLASSIC SWING SIGN

This floor standing sign has a frame and message panel that is weighted with a recycled PVC base, including stainless steel hanging brackets. The printable graphic area is 750x500mm.

*Available in black & white*

## SWITCH SWING SIGN

Our switch swing sign is the same size and shape as the classic swing sign but with a magnetic poster pocket (A2 Size) that allows the user to switch out the message and re-use. The robust and weighted recycled PVC base allows this sign to be used indoor or outdoors.

*Available in black*

## FOLDING SWING SIGN

Our folding swing sign is a simple but highly visual sign display for indoor areas, ideal for cafés, retail and more. A low cost double-sided swinging pavement sign with a white tubular frame and stainless steel hanging brackets. This sign includes non-slip plugs on the base bar. The printable graphic area is 750x500mm.

*Available in white*

---

## SIGN WEDGE

Simple and easy to use budget pavement sign with weighted recycled PVC base. Double-sided graphic area with printable size 740 x 410mm. Quick and easy assembly, no tools required.

## WINDTALKER

Our bsmart windtalker is a robust outdoor signage unit that can be used for pavements and forecourts. The spring mounted legs allow the sign to absorb wind and bend and sway without moving the main base.

*Available in size A0 & A1*

## A-FRAME STAND

Our bsmart A-Frame floor stand is ideal for café, retail, schools and many more applications. Double-sided, allowing maximum visibility, this A-Frame is a stylish message board with an easy change snap-frame mechanism which securely holds graphics or posters in place.

*Available in size A1 & A2*

---

## WOODEN CHALKBOARD

Our wooden chalkboard pavement sign with rustic frame effect offers a double sided display option. In classic A-frame shape, this sign would look great outside cafes, bakeries, garden centres or pubs.

*Available in size A2*

## POSTER BASE

Our poster base is a pair of 'feet' that allow a rigid poster or board to stand vertically. These silver poster base feet are used for indoor exhibition and event purposes.

*Available in 10cm wide*

## SALUTE WATER BASE

Our water base is designed to hold rigid material up to 10mm thick. The base can be filled with sand or water and is suitable for outdoor and indoor use. Recommended height of graphic is 1500mm and under.

*Available in black*

## INFO POINTS

Our info points have 25mm snap opening frames in a satin anodised finish with stylish chrome rounded corners and frames that rotate from portrait to landscape, this product is the perfect option for a professional display of information. It also comes complete with an anti-glare front cover.

*Available in A3 & A4*

---

## CAFE BARRIER SYSTEM

Our Café Barrier System includes an economy post and base units, economy graphic rail and spring clips. This system is a cost effective way of defining areas outside restaurants, bars and shopping centre. All items are sold separately.

*available in 1500mm and 2000mm*

Print media for this product is also available at [Material Solutions](#)
