BOARDS** THAT BENEFIT
OUR COMMON
ENVIRONMENT

SWEDBOARD®

SB Fibre

- Up to 2500mm width
- Dust free
- No cracking when bending
- Customized production
- FSC classified and 100% recyclable
- 100% Food Compliance
- Best rigid paperboard for 3D construction
- New possibilities with Z-Endless Board!

We take the rigid paperboard to a totally new dimension, in every way!

The board is 100% recyclable & FSC certified with negative CO₂ emissions. Almost no waste of raw material in production of the boards.

Customized production gives the printer & converter minimal waste as well. The core is manufactured in a new way which gives us the advantage of dust free boards, no more dust while printing and cutting or during assembly on site.

No cracking in any direction while bending your construction.

We are able to produce not only special formats but also customized colours on print layer, that fits your customer's needs!

All of this makes **SB Fibre** not only the most innovative & creative boards for both volume print and 3D constructions, but also, the best choice for our common environment!
