

TECHNICAL PRODUCT ACCAFOAM:

Description:

The composite panels ACCAFOAM are constituted by an inner core of extruded polystyrene (XPS), with rigid PVC foam coatings on both sides of white color. The composite panel is covered by a protective film on both sides. The edges are squared on all sides.

Properties:

- Excellent flatness
- Excellent stability
- Excellent thermal insulation
- Resistant to UV rays

Coatings:

Rigid PVC foam panels on both sides by 1.0 mm.

A request can be manufactured in other thicknesses,

Standard color: White

Inner core:

Extruded polystyrene foam, machined to make it more planar and to improve the adhesion of the adhesives

Size:

- 1530x3050mm
- 2030x3050mm
- 2030x4050mm

Other sizes and standard sizes are available upon request

Values:

- 10mm 1,800 kg/m²
- 15mm 2,000 kg/m²
- 19mm 2,400 kg/m²

Fields of application:

- Exhibit
- Advertising Signs
- Partitions
- Walls Exhibition

Processing:

- Direct Digital Printing
 - Milling
 - edging
-
