KÖMASTYLE

The ideal wall cladding system
for the renovation and modernisation
of wet rooms.

KÖMMERLING®

Business Unit Sheets

The ideal

wall cladding system

The PVC-U sheets KÖMASTYLE lend your room that quite special character.

Particularly quick and easy to install. Practical, easy care, and quick:

- Available with a range of colour laminates and individual printed motifs on request
- Resistant to moisture, chemicals, light, and heat
- Impact, scratch, and abrasion resistant
- Easy to clean

This smooth, continuous wall cladding presents a convincing look of e.g. plain colours or deceptively real woodgrain and stone decors. KÖMASTYLE is your solution for concealing, for instance, “rundown” wall areas and partial old tiling (e.g. in bathrooms). Processed with ease, it provides a quick, clean, functional, and visually appealing upgrade to separate functional areas and even entire rooms.

Coming with 19 timeless decors and 6 plain colours, KÖMASTYLE sets decorative highlights. Thanks to the outstanding surface properties of its pore free sheets, this system presents little opportunity for limescale, dirt, and soap residue to find a stubborn hold.

The great advantage of KÖMASTYLE lies in the simple processing of its material. The sheets can be adapted to the structural conditions with conventional tools (saws, drills, grinders). The designer sheets are applied with bonding adhesive directly to a suitable substrate such as tiles or plaster. Unsightly or damaged areas transform instantly into decorative, maintenance free wall areas.

Quick and clean – without time consuming and dirty tiling work.

■ Applications and references

- Wall cladding in sanitary areas
- Shower backwalls
- Ready-made showers
- New interior designs:
Hospitals, nursing homes,
medical practices, hotels,
wellness areas, swimming baths
- Furniture making
- Vehicle fittings
- Aquarium claddings

■ Product features

- Appealing plain colours and woodgrain and stone decors
- Plain colours
- Individual printed motifs
- Five year warranty for bathrooms and spa areas
- Wet resistant, so no swelling
- Good chemical resistance
- Good scratch resistance
- Long service life
- Suitable for all woodworking tools
- Easy to saw, mill, drill, and file
- No splintering on the saw lines
- Not as brittle as standard PMMAs
- Insensitive to hairline cracks, PVC less susceptible to notching than PMMA
- Excellent bonding properties on various substrates
- Very lightweight for easy installations
- Simple and easy to clean
- Excellent recyclability
- Low cost
- For indoor use only

■ Drilling and sawing patterns

Our sheets present excellent drilling and sawing results.

Delivery programme

Name	KömaStyle Deco	KömaStyle Uni
Dimensions	2500 x 1250 mm	2500-3000 x 1250 mm
Thickness	8 mm	8 mm

Pallet contents: 40 PC
Special lengths on request

KömaStyle Deco:
Ultra-small runs of 12 sheets per pallet possible (with surcharge)

Specifications

Name	Standard	Unit	KömaStyle Deco	KömaStyle Uni
Weight	-	g/m ²	4.400	7.000
